### THE STATE NEWS IN A NUTSHELL

Here Are Found Accurately Detailed  
the Happenings of the Largest Im-  
port Which Are Attracting Atten-  
tion Throughout Kentucky.

Dixon, Ky., June 3.—The race riot which occurred March 14 at Providence, a village near here, had a sequel early Sunday morning in the lynching of Jake McDowell, a negro, who had confessed to being one of a party of negroes who killed one traveling man and wounded another. The lynchings appeared at the Dixon jail, where McDowell was confined awaiting trial, about 2 o'clock in the morning. There were but ten men in the party, all of them save the leader being masked. A few shots brought the jailer to the door when he was overpowered and compelled to open McDowell's cell. Mounting the negro on an extra horse, the party proceeded out of town, two shots being heard when they reached open country. The negro was shortly afterward found dead by the roadside, having been stabbed and shot twice.

### THE MYSTERY CLEARED

Confession Made in Court in Case of  
Newton Hazlett.

Frankfort, Ky., June 3.—The mystery which has surrounded the death of Newton Hazlett, the prominent young farmer of Shelby county, who was found dead on the road a week ago with two bullet-holes over his heart, was explained in the Shelby county circuit court when Walker Duncan, a neighbor of Hazlett, a well-known farmer and member of the Law and Order League, confessed that he killed Hazlett, believing him to be a night rider about to burn his tobacco barn.

The confession of Duncan followed the filing of indictments by the grand jury charging Duncan and Riley Harro with killing Hazlett. Both men were in the courtroom at the time the counts were returned to the court.

When the body of Hazlett was found two chambers of his pistol were empty and a pair of wire-cutters were found in his pocket. Duncan was released on a \$5,000 bond and Harro gave a \$2,000 bond to answer to the charge of murder at the next term.

### NIGHT RIDERS INDICTED

Bills Returned at Frankfort for Raid  
on Elmburg Store.

Frankfort, Ky., June 3.—Nineteen indictments have been returned by the Shelby county grand jury in the night rider cases. The grand jury is still in session and more indictments are expected. The indictments returned were the outcome of an alleged visit by a band of night riders to the general store of Hall Bros., at Elmburg, several months ago and the destruction of tobacco canvas they had for sale.

### BEACH HARGIS TRIES SUICIDE

Son Who Slew Father Attempts to  
End His Life.

Jackson, Ky., June 3.—Beach Hargis, in jail here awaiting trial for the murder of his father, Judge James Hargis, attempted suicide by morphine. The doctors, who worked over him for several hours, announce that he will recover. Allen Cheech, now on trial for murder, drank a pint of whiskey containing strychnine and is in a precarious condition.

### Pardon for Mrs. Hollowell.

Frankfort, Ky., June 3.—Governor Wilson has granted a pardon to Mrs. Mary Lou Hollowell, before her trial in Caldwell county circuit court under indictment charging her with being an accessory to scraping tobacco plant beds in that county. Mrs. Hollowell is the wife of Robert Hollowell, who secured a judgment of \$35,000 in the United States court at Paducah against a number of well-known farmers, who were accused of shooting up his home.

### Night Rider Suits Compromised.

Paducah, Ky., June 3.—The Hollowell night rider damage suits were compromised, the plaintiffs receiving \$15,000. A few weeks ago, in the United States court, Robert Hollowell obtained a verdict of \$35,000 against twenty-nine alleged night riders of Caldwell county, who were accused of raiding his home and compelling him and his family to flee from the state to save their lives. He sued for \$50,000 and his wife and son for a total of \$75,000.

### Pooled Tobacco Sells for 13 Cents.

Henderson, Ky., June 1.—Two thousand hogheads of stemming district association tobacco have been sold in Liverpool at 13 cents a pound by General Manager William Elliott. The sale involves 2,400,000 pounds and will bring \$312,000 to the farmers of Henderson and Webster counties. This sale cleans up the pooled crop in five counties.

DeWitt's Little Early Risers, the famous little liver pills are sold by Cas. C. Davis.

## ILLINOIS PETROLEUMS

Systematic Comparison Being Made by  
Geological Survey.

Springfield, Ill., June 3.—The importance of a systematic comparison of the different varieties of crude petroleum occurring in the United States is receiving full recognition in the United States Geological Survey, where an examination of certain oils from the new Illinois field has just been completed. In February of this year the survey sent an agent into the Illinois field to collect representative samples of the oils, the localities being selected in conference with Dr. H. Foster Bain, the state geologist. These samples were shipped to Washington, where they were examined by Dr. David T. Day, who has charge of the oil investigations. The samples were examined as to odor, color, and specific gravity, and then distilled by the Engler distillation apparatus, the quantity distilled up to 150 deg. C. being classed as naphtha, and that between 150 and 300 deg. C. as burning oil. The determination of the sulphur content of the oils was made in the Pittsburgh laboratory of the survey.

The methods used in these oil tests have been selected because of their simplicity, which enables them to be carried rapidly to completion, and the treatment of all the samples in precisely the same manner affords a basis for a just comparison of the oils. In the first series of tests oils from 34 pools were examined, and tests on 104 samples collected in April in the mid-continent field are now under way.

The oils range in gravity from 39.5 deg. B. in the deep wells (1500 feet) in the Bridgeport pool to 22.3 deg. B. in the Duncanville pool. Some of the shallow wells (300 feet) in the north end of the field also yield oils as light as 35.5 deg. B.

No oil was found with more than half of 1 percent of sulphur, and this only in the extreme north end of the field. Farther south the average is about one-fourth of 1 per cent and the oils are acceptable as nonsulphur oils. Pipe-line samples from all pools averaged still less—that is, 0.2 per cent.

The percentage distilling below 150 deg. C. ranged from 1 to 21, averaging 13.2 per cent for the state. The burning oil averaged 31.2 per cent.

Most of the oils contained practically no asphalt and considerable proportions of paraffine wax.

## COTTON SEASON LATE

Not Only That, But the Acreage is  
Millions Short.

Memphis, Tenn., June 3.—At a meeting of the state presidents of the Farmers' Educational and Co-operative union, the total acreage of cotton planted May 30 was estimated at 28,832,000 acres, as compared with 31,311,000 acres in 1907 (government estimate). This estimate is compiled from reports received from all the cotton growing states.

According to the reports, the season is on an average of fifteen days late. It is not believed that an accurate estimate as to the quality of the stand and the possible yield can be made for thirty days, should no further damage occur and it is regarded as certain that little cotton will mature for ginning in September.

Reports to the National Cotton Ginners' association up to May 28, show the average condition of cotton to be 80.6 and the acreage 21,357,000 as compared with 32,060,000 last year, or a reduction of 1.9 per cent. from last year. The average stand is 89 per cent and the crop average thirteen days late.

Reports from the boll weevil district are that the weevil is beginning to appear, but it is too early to do much damage. While the condition at this time is about 10 points higher than last year, this does not indicate that the crop will be that much larger. With average weather from now on, it would indicate a crop of about 12,000,000 bales, and with bad conditions and the boll weevil working it would mean no larger crop than last season.

## A RANK FAKE

Commissioner Sargent Denounces  
Story of Dead Chinamen.

Washington, June 3.—Commissioner Frank P. Sargent, of the bureau of immigration, who has returned from a trip to New York and Boston, denounced the story published last week that twelve Chinamen smuggled into this country had been received dead in New York, as the rankest kind of fake.

The emigration bureau investigated the matter carefully. On the strength of the inquiry the department of commerce and labor declares officially that the story was a hoax.

## Didn't Long Survive Victim.

Fairmont, W. Va., June 3.—Rev. S. A. Coffman, who murdered his wife at the Meadowdale parsonage two weeks ago, is dead in the city hospital here from nervous collapse. He was to have been tried on a charge of murder in court here this week. He is believed to have been mentally deranged. Last week he became violent and was put in a padded cell after a struggle. When taken to the hospital he refused to eat for three days.

## The Plague at St. Thomas.

St. Thomas, D. W. I., June 3.—One fatal case of bubonic plague has been officially reported here and two suspected cases are being watched.

CHARLIE CHANDLER.

We know of no one, who is enjoying a more bountiful harvest, from deserving efforts than the subject of this brief sketch. Mr. Chandler is a native of North Carolina, and came to this state about a dozen years ago. He first located at Brodhead this county, where for several terms he was principal of the Brodhead public school and during the winter months conducted successful private schools. After leaving Brodhead he located at Pittsburg, accepting a position as traveling salesman for the Nolin Milling Co., for whom he has worked up a splendid trade, not only throughout his territory in Kentucky but also Virginia and Tennessee. Besides this he has acquired valuable holdings in coal and timber lands which return him a handsome dividend. In addition to this, he is also one of the largest stockholders in the Pineville Telephone Co., who are now stringing the copper wires from Middlesboro to Lancaster to connect with the Bastin and other Independent lines of the State. Mr. Chandler has many warm friends in Rockcastle who will be delighted to know of his splendid success and good fortune.

### ANNOUNCEMENTS

We are authorized to announce G. T. JOHNSON as a candidate for County Clerk, subject to the action of the Republican party.

We are authorized to announce FELIX BOWMAN as a candidate for County Court Clerk, subject to the action of the Republican party.

To-morrow is the day, when the Democrats of the county are called to meet in Convention at the court-house in Mt. Vernon, to select delegates to the State Convention which meets at Lexington June 11th. We hope to see a goodly number present. Every indication points to the fact that this Democratic year all over this great land of ours.

EMMETT LOGAN, for many years a brilliant writer on the Louisville Times has decided to turn to his old love and will start a newspaper at Bowling Green, known as the Daily Messenger. Mr. Logan has swayed between the rural life of the farmer and the more stirring, exciting life of the editor, and again he is unable to resist the temptation of printers ink. Such a man and such a writer belongs to journalism and is welcome to the ranks.—Ex.

THE most accurate figures which can be gathered on the status of the delegates so far elected to the Democratic convention show that of thirty States and territories which have elected delegates 481 are instructed for Bryan, 22 for Johnson, 11 for Gray and 163 uncommitted. 677 delegates have been elected, hence Mr. Bryan has 71 per cent. instructed for him. It takes 668 delegates to nominate, so Mr. Bryan only needs 187 more. That he will easily get these is apparent from the list of States which hold conventions beginning at Fort Worth, Tex., on May 26 and ending in Burlington, Vermont, June 26.

Lexington, Ky., June 3, 1908.—Lexington is making extensive preparations to entertain the State Convention and no effort will be spared to assure the comfort of every person who attends. The whole city is taking the greatest interest in the matter and all of the details are in the hands of committees composed of representative citizens.

There is every prospect now that the convention will be the largest in the history of the Democratic party in Kentucky. A large proportion of the population of the Blue Grass section easily reached by interurbans and steam railroads will turn out and reports come from every section of the State indicating an unusually large attendance.

One of the most encouraging features of the situation is the fact that there is a disposition in every part of Kentucky for the Democrats to get together, bury all their factional differences and unite for a great Democratic victory. The Republican convention recently held in Louisville was marked by a bitter struggle between the two factions. Nearly half of the seats in the convention were contested. It is now probable that there will not be a single contest in the Democratic convention to be held in Lexington. Reliable information from those parts of the State where there was the greatest danger of factional strife is to the effect that the factions are getting together and the convention now promises to be not only the largest but the most harmonious ever held by Kentucky Democrats.

Lexington and Lexington Democrats are particularly interested in

having not only a harmonious convention but a large attendance. Elaborate preparations are being made to insure comfortable quarters and abundant restaurant facilities. Nobody who comes to Lexington need fear that there will be any trouble about a comfortable place to sleep or any lack of opportunity for good meals at reasonable prices. Lexington is particularly anxious to do her part in a creditable manner, and the matter has been taken up in such a way as to insure the most thorough preparation.

Special pains will be taken to provide for the comfort and convenience of the newspapermen. A special press committee has been appointed and ample facilities for reporting the convention will be provided. Special effort will also be made to see that every newspaper man has comfortable quarters.

Mt. Vernon, Ky., May 31, '08.

"There is a way that seemeth right unto man, but the end thereof is the ways of death." This way is always brilliant and enticing at the entrance; it bears above its portals the inviting word, pleasure, and it promises enjoyment to all who enter there. Those who enter never think of danger. The thousands of unsuspecting girls led into lives of shame by the seductive influence of ballrooms, never dreamed that there was danger in the splendid place where the lamps shone bright over fair women and brave men, where as music arose with its voluptuous swell soft eyes looked love to eyes that spoke again and all went merry as a marriage bell. And yet investigation proves that by far the greater number of the fallen women of our land date their degradation from the ballroom and the dance.

The brilliancy of cut glass, polished mirrors and sparkling liquors of the fashionable saloon speaks nothing of the poverty, delirium

and death which lie at the end of way. The debauchee treads and when the sparkling winecup held in the fingers of a beautiful woman with sparkling eyes and winning tones invites an admiring one to drink, who could see mirrored in the crimson depths, wrecked homes, broken hearts and doomed souls.

The Apostles were accused of turning the world up-side-down; but some things in the world when turned up-side-down are really right-side-up, and "red rum" is one of these things, it looks so innocent, so tempting, so inviting, but when you turn it around or spell it backward you have it spelled correctly, its real name is murder. Not only does it lead to bloodshed and crime, but it has in it the murder of manhood, the murder of honor, the murder of home, the murder of the soul; and yet I saw a lady beautiful and fair with witching smile inviting an admiring youth to drink of such a cup which she held out to him and when he would not drink she thought him weak, unmanly and a coward. Oh, to think that woman, last made and fairest of all God's creation, having power to lead man captive at her will though he be strong as Sampson should ever prostitute her power to destroy the devotees who come to worship at her shrine. To think that having power to make a barren spot on earth like heaven for a man she would drag him down to hell. Such is the way that seemeth right unto man. Study this carefully, for if my gold is rapt up in ore, none throw away the apple for the core.

Col. E. W. Lillard, on his return to Frankfort from Bracken county, reported that conditions there on the arrival of the soldiers were much worse than than they have ever been pictured. He said at the large tobacco rally at Augusta floats were paraded which represented Gov. Wilson in a disgusting attitude and showed night-riders scraping a plant bed and hanging a dummy. Col. Lillard said these floats were loudly applauded. Conditions have greatly changed and the worst element is now under control.

As the result of a little shooting affray between Oscar Bostic and Richard Sowder, aged 13, a son of Dick Sowder, Bostic had Dr. Southard employed several hours Monday evening, picking shot out of his body, arms and head. There were nearly a hundred No. 3 shot hit him but barely buried themselves in the flesh, making the wounds of very little importance. The trouble came up over a partnership fence between Bostic and Sowder. Sowder says Bostic emptied his revolver at him. The trial is set for to-morrow.

The best ball game witnessed in Mt. Vernon in a long time, was played last Saturday afternoon between Mt. Vernon and Livingston. The score stood 6 to 5 in favor of Livingston. The home boys played fine ball except when they came to the bat, when it seemed they were wholly unable to judge in any particular, the balls of Bruner, from London, who was in the box for Livingston. To the splendid work of Bruner and Pike is due the victory for Livingston. The Mt. Vernon boys played hard and did splendid field work. They will try it again July 4.

# There's only one REAL "BEST"

Numerous merchants to-day are proclaiming their clothes as the "best in town," the "best made" etc. They can't ALL be right.

There is a REAL "best" SOMEWHERE, and the man who knows where it is is fortunate indeed, for his "clothes worries" are settled.

Hundreds of people in this country KNOW that the REAL "best" clothes and shoes are at this store, and the prices are right.

How do they know it? Surely not by taking our word for it.

Guess how they found it out, and then come find it out for yourself in the same way.
